## Cyber Security Recruiting

Kaye/Bassman's rapidly growing Cyber Security practice recruits and places experienced cyber security professionals at numerous levels and varied capacities. Our Cyber Security recruiting practice is engaged in search with organizations across industries nationally, helping drive our clients' mission to invest, protect and secure their connections that are so vital to ongoing productivity, growth, and profitability.

We have a proven track record of placing highly skilled professionals for our clients by developing unsurpassed relationships with our clients and candidates. Our team specializes in identifying and recruiting professionals within a vast amount of backgrounds. The career experiences our candidates encompass includes IT governance, information security, security program development, security analysis and remediation, digital forensics, and many more. This is based on what our clients deem their most critical staffing needs to be. We recruit and place consultants, engineers, technical advisory leaders, network/computer support specialists, cyber intelligence leaders, forensic investigators, and more.

Through the flexibility of our *Client Focused Search™* approach, which provides proper alignment of expectations based on the service level and urgency our client requires, and our *Market Mastery* model of proactively developing candidate relationships in core functional disciplines ahead of need, Kaye/Bassman's Cyber Security practice has the experience, process and tools to help our clients tap into the strategic leadership and tactical talent they need.
