Energy Power

Kaye/Bassman's Power Recruiting Practice is the leader in placing experienced engineers, operators and management in critical utilities, merchant and transmission, and infrastructure roles. Our tenured professionals each have experience in the power industry and average over ten years of search experience. We have a proven track record of placing managers, directors and vice presidents in a variety of critical roles in the power industry. Kaye/Bassman clients include engineering design and construct firm, utilities, independent power producers, plant operating companies, local and regional power management system operators.

We apply our *Client Focused Search* approach, enabling us to build strong relationships through superior service. Our insight into current industry trends, coupled with "best practices" knowledge of how companies succeed, make us not only a preferred search firm but also a strategic partner in helping implement the drivers of our clients' business.

Regardless of your unique requirements, our *Market Mastery* and *Client Focused Search* approach has enabled us to deliver unparalleled results to any functional area, industry sector, level of position or geographic location.

The Kaye/Bassman Energy Power Recruiting team has the tenure and the resources to help clients address these staffing challenges. We have a proven track record of placing highly skilled candidates at key institutions across the nation for select clients. We succeed because of the tremendous value we place on long-term client and candidate relationships.
